Education

University of Malaya — *Kuala Lumpur, Malaysia*
PhD in Electrical and Electronics Engineering — **Oct 2024 – Present**

Asia Pacific University of Technology and Innovation — *Kuala Lumpur, Malaysia*
Bachelor of Engineering (Hons) in Telecommunications Engineering — **Jun 2020 – May 2024**

CGPA: 3.9/4.0

Projects:

- *Fast Start-up Crystal Oscillators*: Developed innovative self-timed energy injection techniques.
- *Smart Glasses for Electrical Pre-Installations*: Replaced traditional manual methods with smart glasses and integrated chatbot functionality.
- *Carbon-Sensing Drone*: Automated carbon emission level measurements across geographic regions.

De Montfort University
Master of Engineering (Hons) in Telecommunications Engineering — **Jun 2020 – May 2024**

- Dual Degree Program in collaboration with Asia Pacific University of Technology and Innovation.

Asia Pacific University of Technology and Innovation — *Kuala Lumpur, Malaysia*
Foundation in Engineering — **May 2019 – Mar 2020**

Experience

Analog, Digital and RF Research Group, University of Malaya — *Kuala Lumpur, Malaysia*
Research Assistant — **Jul 2024 - Present**

- Researching GaN gate driver for EVs under the CREST grant.
- Designing and developing integrated gate driver for GaN power switches using TSMC 180nm BCD process.
- Collaborating with University of Nottingham Malaysia to achieve project goals.

STMicroelectronics Sdn. Bhd. — *Muar, Johor, Malaysia*
Test Engineering Intern (Hardware) — **Mar 2023 – Jun 2023**

- Maintained and optimized test jigs, ensuring reliable performance with minimal downtime.
- Developed test recipes on the FlexyTEST system for various test jigs.
- Coordinated with external vendors for successful system upgrades and improvements.

Asia Pacific University – Engineering Lab — *Kuala Lumpur, Malaysia*
Engineering Technical Assistant — **Oct 2022 – Feb 2023**

- Assisted lecturers during laboratory sessions to enhance the learning experience.
- Supported students in the use of lab equipment, ensuring safety and understanding.
- Managed and maintained lab tools to ensure optimal functionality and availability.

Har Soonly Sdn. Bhd. — *Muar, Johor, Malaysia*
Cashier — **Nov 2018 – Apr 2019**

- Ensured smooth checkout processes.
- Managed financial records, ensuring accuracy in reporting and accounting.

Skills

Technical: Analog circuit design, Cadence Virtuoso, LTSpice, Python, C, Scripting, MATLAB, Linux.
Language: English (Full professional proficiency), Mandarin (Native), Malay (Professional working proficiency).

Achievements

- ***Outstanding student award***, Asia Pacific University, 2024
- ***Vice Chancellor's list***, Asia Pacific University, 2022 / 2023
- ***Silver Award*, Malaysia Technology Expo 2024**, University of Malaya, 2024, for "AI in Safety Management: Intelligent PPE Detection for the Automotive Industry."
